

Mobile Medical Cart Computer

The ST594 Medical Cart Computer, featuring the slim and elegant design of the SUMO Technologies all-in-one series, is the latest innovation in medical computing systems, integrating swappable batteries to facilitate mobility for healthcare applications.

The Medical Cart Computer integrates a vivid 24" display, a high performance Intel® Celeron® or 5th Generation Core™ i-series processor and an internal power supply in a compact, mountable package with anti-microbial coating.

With WLAN connectivity an optional touch screen panel, this Medical Cart Computer is ideal for health professionals to manage patient information, and also eliminates the need to purchase costly medical cart batteries.

The ST594 is the new generation of medical cart computers, making data access efficient, optimizing staff workflow, and minimizing the total cost of ownership.
