

PRODUCT DETAILS

EPMA Duo

On-board Battery Upgrade Available

Overview:

The EPMA* Duo is a medical trolley that has been designed to aid in bringing technology to the bedside, and assist with any EPMA implementation. The trolley features a fixed height worktop with the option to upgrade to an on-board battery that can power a PC and screen.

The trolley can be customised to suit your working environment with options that allow the attachment of equipment such as disposable sharps bins, barcode scanners, printers and gel bottle holders. With its steel construction and high-quality parts, this mobile dispensary cart is designed and built to securely house and transport medication in hospital environments.

Benefits:

- Lockable doors keep all medication safe.
- Closes the drug administration loop, improving staff efficiency and workflow, while bringing an EPMA system of choice to the bedside.
- Customise your trolley's corner colour to differentiate between uses, for example EPMA and Phlebotomy.
- Ergonomically designed with a slim profile and built in handles for easy manoeuvrability.
- Infection control friendly design, with anti-bacterial and cleanable surfaces, and an exterior design free from cavities, so dirt and germs cannot accumulate.
- Adaptable to your needs and equipment, can be configured to accommodate different devices, including PCs, Micro PCs, laptops and tablets.
- Built to last, with steel construction and durable compact laminate work surface.
- Flexible tray configurations.

*EPMA - Electronic Prescribing and Medicines Administration
